**GENERAL**

**RATE G-2**

**PRIMARY CREDIT**

A credit of two percent of the total bill (not including all other tariff adjustments and other Miscellaneous Charges and before the deduction of the Transformer Ownership Allowance) will be made when energy is metered at the nominal voltage of 2,400 volts single phase or 4,160 volts three phase.

**TRANSFORMER OWNERSHIP ALLOWANCE**

If a Customer furnishes, installs, owns and maintains at his expense all the protective devices, transformers, and other equipment required, as specified by the Company upon request, the electricity so supplied will be metered by the Company at line voltage and the monthly demand charges will be reduced by 12 cents per kilowatt of demand when the demand is 75 kilowatts or more and the nominal voltage is 2,400 volts single phase or 4,160 volts three phase.

**DETERMINATION OF DEMAND**

The billing demand will be the maximum fifteen- minute demand (either kilowatts or 90 percent of the kilovolt-amperes) as determined by meter during the monthly billing period, except any demand recorded during off-peak hours will be reduced by 55 percent (see the Additional Meter Charge below). Demands established prior to the application of this rate shall be considered as having been established under this rate.

Separately metered outdoor lighting for recreational facilities that are owned and operated by a public authority Customer of record, such as a municipality or a state agency, may utilize this rate until it is metered for Time of Use Rate T-2. For such a Customer, the billing demand recorded in the billing months of June to September will be reduced by 55 percent if no use other than outdoor recreational lighting is included under this service and the lights are used only after 6 p.m.

**BILLING**

In determining if a demand charge reduction is applicable, the following defines the peak and off-peak periods:

- (1) During the months of June through September, the peak period shall be the hours between 9 A.M. and 6 P.M. weekdays. During the months of October through May, the peak period shall be the hours between 8 A.M. and 9 P.M. weekdays.

FARM DISCOUNT RIDER

A Customer taking service under this rate may be eligible for the Company's Farm Discount Rider, as in effect from time to time.

**GENERAL**

**RATE G-2**

**TERMS OF PAYMENT**

Charges are net and are payable upon presentation of the Company's bill.

**TERM**

Service under this rate shall be for a minimum term of 12 consecutive months and shall continue thereafter until terminated on six months' written notice by the Customer.

Except for Customers engaging in net metering, Customers served under this rate must provide the Company with six months' prior written notice before installing or allowing to be installed for its use a non-emergency generator with a nameplate capacity greater than that in place on the Customer's location as of October 1, 1993.

GENERAL

**RATE G-3**

AVAILABILITY

Service under this rate is available for all use at a single location on contiguous private property if service is supplied to the Customer and metered at 14,000 volts nominal or greater and if the Customer furnishes, installs, owns and maintains at his expense all protective devices, transformers and other equipment required by the Company. Service under this rate is subject to both the Company's printed requirements and the Company's Terms and Conditions - Distribution Service, each as in effect from time to time.

CHARACTER OF SERVICE

The Company delivers 60 hertz, three-phase alternating current service at primary voltage under this rate schedule. As available and at the Company's option, such service shall be supplied at approximately 14,000 volts or greater.

OPTIONAL TIME OF USE

**RATE T-1**

AVAILABILITY

Upon written application and the execution of an electric service agreement, this rate is available for all non-residential uses of electricity to Customers who take all of their electric service through a single meter, subject to the availability of time-of-use meters as determined by the Company. This rate is not available when Customer's load for billing purposes either exceeds or is estimated to exceed 10 kilowatts in any billing month. The Company may install a demand meter on a Customer's premises where the Customer's use exceeds 3,000 kilowatt-hours in any one month so as to evaluate the Customer's load for transfer to Rate T-2.

Service under this rate is subject to both the Company's printed requirements and the Company's Terms and Conditions - Distribution Service, each as in effect from time to time.

CHARACTER OF SERVICE

The Company delivers 60 hertz, alternating current service at secondary voltages under this rate schedule. As available and at the Company's option, such service shall be either single-phase at approximately 120/240 or 120/208 volts or 4-wire, three-phase at approximately 120/208 or 277/480 volts.

**SERVICE FACILITIES**

Under this rate, the Company will furnish, install, own, and maintain street lighting facilities and fire alarm lighting units on public streets. Service for non-standard lighting units is available in accordance with the provisions of Rate S-2. Service for other public or private property is available in accordance with the provisions of Rate S-3.

It is the Company's policy to offer a wide range of industry-accepted energy efficient streetlights. In cases where a city/town requests additions to the Company's existing schedule of streetlights, the Company will: (1) evaluate the market potential of the streetlight to assure there is adequate interest to meet minimum ordering requirements; (2) determine the technical merit and feasibility of the proposed addition to the existing schedule; and (3) share the costs of 1 and 2 with the proponents of the change. Any suggested changes to the schedule arising from the

proposal will be subject to DTE review and approval. The Company reserves the right to withdraw this policy, if the number of requests exceed the Company's resources available to provide 1 and 2 above.

For new overhead-connected services, the Company will provide a standard lighting unit and a single span of overhead secondary wire if such span is necessary. All other construction costs will be undertaken, solely at Customer expense.

For new underground-connected services, the Company will provide a standard lighting unit and a single section of underground secondary cable from the service manhole. All other construction, including the installation of conduit and manhole breaks, modifications to the service manhole, extensions of the existing distribution system to the service manhole, and all paving, will be undertaken solely at Customer expense.

**GENERAL CONDITIONS**

If a Customer requests a change to a unit less than twenty-five years old, the Customer will pay a charge equal to the cost of the change multiplied by the ratio of the number of years remaining until the existing installation would be in service twenty-five years divided by twenty-five. For changes to a portion of an individual street, or the entire street, or all lighting units provided under this rate, the Company will determine the age on the basis of the average age of all units to be changed. During any calendar year, the remaining portion of the costs will be assumed by the Company up to a limit of ten percent of the prior calendar year's revenue from the Customer, exclusive of the fuel and purchased power adjustment. Once the limit is exceeded, all costs of changes for the remainder of the calendar year will be paid by the Customer.

Customer requests to relocate lighting units, regardless of age, will be provided solely at Customer expense. Alternatively, the Customer may also terminate service at the old location and apply for new service.

If a street light installation in a Company-approved Underground Residential Development (URD) area was made prior to October 31, 1992, an allowance of \$2.02 per month will be made from the Class V unit charge contained herein.

If the Metropolitan District Commission, has furnished and installed a lamppost and a bracket acceptable to the Company and continues to own and maintain such installation, pursuant to order in D.P.U. 14132, an allowance of \$2.04 per month will be made from the Class V unit charges.

**OUTAGE ALLOWANCE**

A deduction for lamps not lighted during the hours called for by the existing street lighting schedule applying thereto will be made at the rate of 1.3 cents per lamp hour on all lamps smaller than 10,000 lumens, and at the rate of 3.1 cents per lamp hour on all other lamps.

**BILLING**

All bills calculated under this rate schedule are due when presented and shall be rendered monthly. Billing kilowatt-hours include lamp wattage plus accessory wattage.

**RTC CHARGE**

The Reimbursable Transition Cost ("RTC") Charge is a usage-based charge that constitutes all or a portion of the Transition Charge on each bill. The RTC Charge is set forth in an Issuance Advice Letter filed by the Company with the Massachusetts Department of Telecommunications and Energy ("M.D.T.E.") on July 28, 1999 and may be adjusted from time to time in accordance with the M.D.T.E.'s order in Boston Edison Company, D.T.E. 98-118. Copies of any applicable Issuance Advice Letter or true-up letter and the M.D.T.E.'s order in Boston Edison Company, D.T.E. 98-118 are on file with the M.D.T.E.

**RATE ADJUSTMENTS**

The charges for delivery service shall be subject to the following:

- Transition Cost Adjustment
- Transmission Service Cost Adjustment
- Pension Adjustment
- Demand-Side Management Charge
- Renewable Energy Charge
- Default Service Adjustment
- Miscellaneous Charges
- Restructuring True-Up Charge

**TERM OF CONTRACT**

Lighting units are installed by the Company for use at this rate on the basis of permanent service. The Company or the Customer may terminate permanent delivery service by giving at least ninety (90) days notice in writing. If the Customer desires to remove Company-owned installations without replacement by the Company, the Customer will pay to the Company, the portion of the installation cost (current costs trended to the date of installation) determined by the ratio of: (1) twenty-five years minus the age of such installation to (2) twenty-five years. The Customer will also pay the cost of removal of such installation. If temporary service is desired, the Customer will be required to pay the cost of installation and removal and in such case the Customer may terminate service by giving ten days' notice in writing.

**FARM DISCOUNT RIDER**

A Customer taking service under this rate may be eligible for the Company's Farm Discount Rider, as in effect from time to time.

**AVAILABILITY**

Service under this rate is available to the public authorities, such as municipalities, state and federal agencies, for the operation of a public street, park or highway lighting system. including street light equipment purchased pursuant to M.G.L. c. 164 § 34A, owned, operated and maintained by such agencies, on a standard 4,200 hour per year dusk-to-dawn lighting schedule; and for the operation of fire alarm lighting service and traffic signals. This rate is not available for lighting service on private property nor for commercial, industrial or residential use. Service under this rate is subject to the Company's printed requirements and the Company's Terms and Conditions – Distribution Service, each as in effect from time to time.

street lighting schedule. The Company shall have the right to inspect and make tests of the Customer's equipment in connection with the determination of wattage and operating period for billing purposes. The Customer shall give the Company prior written notice of changes in the wattage and operating period of installed equipment.

If, in the case of unmetered service, the standard 4,200 hours per year dusk-to-dawn street lighting schedule is being exceeded, as is commonly the case with a fire alarm unit, the charge for the kilowatt-hours supplied in any month shall be determined on the basis of the rated wattage of the light sources and auxiliaries connected at the beginning of the month multiplied by the average monthly burning hours of an 8,760 hours per year lighting schedule, unless a determination of an operating period of shorter duration is made by the Company, in which case the average monthly burning hours of such annual lighting schedule (minimum of 4,200 hours per year) shall be substituted for the 8,760 hours per year lighting schedule.

The Company reserves the right of final determination of wattage and operating period for unmetered loads.

The Company will furnish and install the public-way portion plus two feet beyond of a single section of secondary cables from the service manhole or pole to the junction point on the basis of the anticipated revenue, exclusive of fuel and purchased power adjustment and other adjustment tariffs. All other costs of construction including extensions of the existing distribution system to the service manhole or pole, the installation of any conduit, manhole breaks, modifications to the service manhole or pole, and paving will be provided solely at the expense of the Customer.

**GENERAL CONDITIONS**

- (1) Customer shall plainly mark Customer-owned street lighting lamppost for the purpose of ownership identification.
- (2) A meter will be required on all installations for traffic signals if more than one lamppost is connected after October 17, 1975.
- (3) If an installation of Customer-owned street lights requires the removal of Boston Edison Company-owned street lighting units less than 25 years old, the provisions for Term of Contract in Rate S-1, as it exists from time to time, shall apply.
- (4) Street Lighting Service shall not be furnished under both Rate S-1 and Rate S-2 in the same area. An area may be defined as follows: (A) Service locations on public ways that may be shown to be within the lines of a geometric figure. These lines will be other public ways. (B) An adjoining portion of a public way that may be shown within the lines of a geometric figure.
- (5) The Company may at its option for situations in which Rate S-1 and Rate S-2 are served within the same area, correct the situation by transferring the Rate S-1 units to Rate S-2.
- (6) The Customer shall pay all construction costs for the relocation, replacement, or substitution of existing service associated with the replacement or modification of existing Customer-owned lighting systems.
- (7) The Customer will furnish, install, and maintain a suitable enclosure for housing the Company's metering equipment as well as a suitable switching or disconnecting device in accordance with the Company's standard practices as adopted from time to time.

**GENERAL CONDITIONS** (continued)

- (8) Execution of a license agreement between the Customer and the Company and any joint owner(s) of the poles is required for all Customer-owned street light equipment installed on Company poles, such license not to be unreasonably withheld by the Company.
- (9) The Customer has the responsibilities and obligations associated with ownership and maintenance of the street lighting equipment served under this tariff. For all street light equipment installed on Company poles, the Customer assumes all liability and shall indemnify the Company for all damages, claims, and liabilities associated with the ownership, maintenance, and operation or failure of operations of the street lighting equipment, except as such damages, claims or liabilities are based on the Company's negligence, and the Company shall have the right to require the Customer to purchase insurance or a bond naming the Company as beneficiary to assure such indemnification and assumption of liability is effective. Under no circumstances shall the Company have the obligation to maintain equipment sold to the Customer absent the execution of a separate agreement for maintenance. All equipment purchased pursuant to M.G.L. c. 164 §34A shall be on an AS IS basis without any warranty, whether express or implied.
- (10) The Customer shall notify the Company thirty (30) days prior to any changes in street lighting inventory. Such notice is necessary to provide for adequate safety and reliability of the Company's distribution circuits and to ensure that the Company will bill the Customer accurately for the cost of distribution, transmission, transition, energy efficiency, renewables and where appropriate, standard or default service. The Company will perform random confirmation of burning lights in a municipality to ensure accuracy.
- (11) In the event that a Customer who owns street lighting equipment chooses to terminate its ownership, the Company is under no obligation to accept (via purchase or any other means), maintain or operate the Customer's street lighting equipment, nor to offer the Customer street lighting service except under the terms of the appropriate Company-owned street lighting tariffs in effect at the time. If in the above event the street lighting equipment does not conform to the Company's standards, the Customer shall remove its non-standard equipment at the Customer's expense and either replace the non-standard equipment with standard equipment again at the Customer's expense or discontinue service for the non-standard equipment.
- (12) Where service under this tariff is not metered, only one monthly Customer Charge will be applied to each such unmetered account.

- (3) Service and necessary maintenance will be performed only during the regularly scheduled working hours of the Company. Burned-out lamps will be replaced upon notification of the outage by the Customer to the Company. No reduction in billing shall be allowed for lamp outages.
- (4) "Company poles" shall include poles owned jointly by the Company with others. Approval of poles, pole locations and structures for the installations shall be at the sole discretion of the Company.
- (5) Any required equipment other than the above will be installed and maintained at the Customer's expense.
- (6) The Customer shall assume all risks of loss or damage to his equipment and property installed in connection with the lighting systems.

**RTC CHARGE**

The Reimbursable Transition Cost ("RTC") Charge is a usage-based charge that constitutes all or a portion of the Transition Charge on each bill. The RTC Charge is set forth in an Issuance Advice Letter filed by the Company with the Massachusetts Department of Telecommunications and Energy ("M.D.T.E.") on July 28, 1999 and may be adjusted from time to time in accordance with the M.D.T.E.'s order in Boston Edison Company, D.T.E. 98-118. Copies of any applicable Issuance Advice Letter or true-up letter and the M.D.T.E.'s order in Boston Edison Company, D.T.E. 98-118 are on file with the M.D.T.E.

**BILLING**

All bills shall be rendered monthly. However, the Company reserves the right to render bills on a bimonthly basis. Billing kilowatt hours include lamp wattage plus accessory wattage.

**FARM DISCOUNT RIDER**

A Customer taking service under this rate may be eligible for the Company's Farm Discount Rider, as in effect from time to time.

**TERM OF CONTRACT**

As specified in the agreement for service, the Customer may terminate delivery service on or after the expiration of such specified term of service by giving at least (90) days' notice in writing.

**DEFAULT SERVICE ADJUSTMENT**

The prices in all the rates of the Company are subject to adjustment to reflect the power purchase costs incurred by the Company in arranging Default Service that are not recovered through the Default Service rate.

On an annual basis, the Company shall reconcile its total cost of purchased power for Default Service supply against its total Default Service revenue, and the excess or deficiency shall be refunded to, or collected from, Customers on a per kilowatt-hour basis over the following twelve (12) months, with interest, through a Default Service Cost Adjustment Factor. For purposes of the above reconciliation, total purchased power revenues shall mean all revenues collected from Customers through the Default Service rate for the applicable 12-month reconciliation period together with payments or credits from suppliers, including uncollected prior period balances in the Default Adjustment account.

The rate for the Default Service Cost Adjustment Factor, effective January 1, 2004, shall be equal to \$0.00073 per kilowatt-hour.

The calculation of the Default Service Cost Adjustment Factor shall be subject to the review and approval of the Department.
